ENCLOSURES

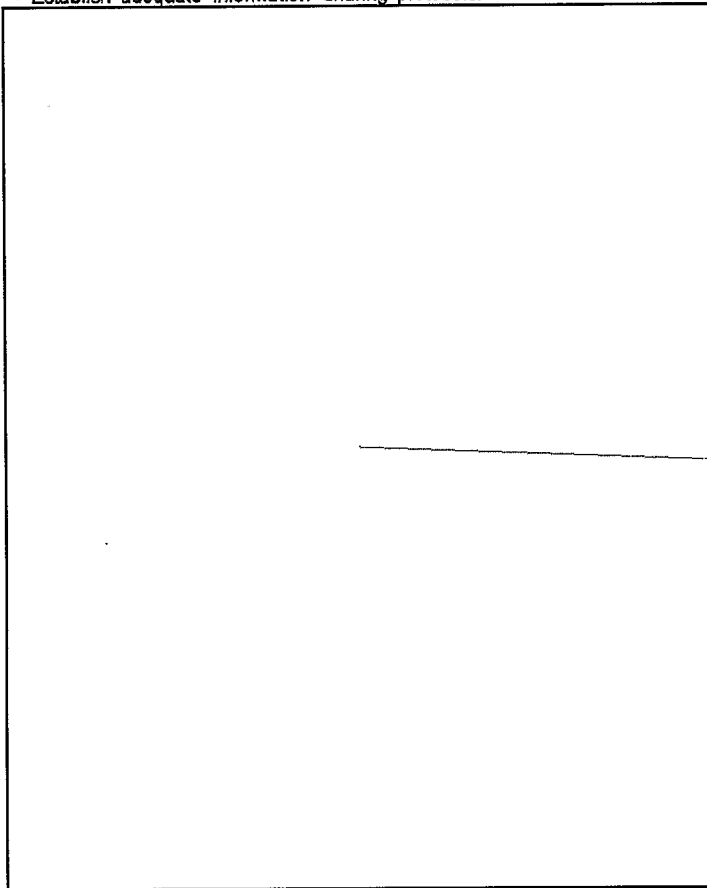

TEXT: 1. (U//~~FOUO~~) EXECUTIVE SUMMARY. This report forwards the Land
Surveillance Workshop's presentation given during the 08-10 May 2012
Tri-Border Conference, held in Belize City. The presentation,
attached as an enclosure, discusses the desired improvements to
detect, track, interdict, and exploit illicit cross-border
trafficking by Transnational Criminal Organizations (TCOs). Of note
is the recommendation to develop an Information Operations plan to
strengthen public cooperation. [REDACTED]

2. (U//~~FOUO~~) OBJECTIVE. The objective of the land surveillance
working group was to define strategies in support of civilian
authorities to minimize and disrupt the illegal trafficking of drugs,
arms, human, chemical substances, currency or other materials, as
well as limiting the actions of criminal groups and transnational
organized crime affecting Mexico, Belize, and Guatemala. To meet the
objective, the follow cooperative points were discussed:
--Promote public reporting through telephone lines or e-mail;
--Convince the civil population to change their attitude by
developing a plan in support of infantry operations; operational
plans, use of rewards;
--Share information on tracks of illegal aircraft landing in an
unknown location of the territory in order to capture them in any
other geographic location by the authorities of the affected nation;
--Promote collaboration, confidence and cooperation mechanisms to
capture criminal bands and to disrupt the illegal trafficking of
drugs, weapons, persons and money. The mechanisms should be framed
to respect the sovereignty and laws of each country.
--Define the prosecutable offenses of each country; and

- Promote the regulation and banning of substances, arms and currency transfers to political entities.
- Hand over to the respective law enforcement agencies, criminals who have been detected trafficking or committing an illegal act.
- Respect at all times human rights in order to prevent the victimization of offenders;
- Promote integration with law enforcement agencies in actions to counter transnational organized crime;
- Ask law enforcement authorities to share information regarding Transnational Criminal Organizations (TCOs), their modus operandi and methods.
- Create joint and combined operational centers to include representatives from the civil authorities;
- Develop workshops to share lessons learned;
- Establish an information support plan in support of operational actions;
- Define a rewards program consistent with the contributions from each country and decide who will manage them; and
- Establish adequate information-sharing protocols.
